

Provide your employees with Safe Spaces™ to work

Companies now need to rethink where employees work and ensure everyone returns to a safe workplace.

Safe Spaces™ is a coworking industry program designed to help you and your employees access workspaces that are taking the necessary steps for health and safety. Choose from any Safe Spaces™ workspaces based on CDC and WHO guidelines.

Safe Spaces™ benefits

Alleviate WFH fatigue

Give employees still working from home an alternative workspace nearby to escape the distractions & redundancy of a home office.

Reduce the commute

Provide workers with one less risk by letting them access workspaces close to home that avoid the commute.

Reduce occupancy in your offices

Easily implement social distancing measures in your main office by providing half of your employees with Upflex.

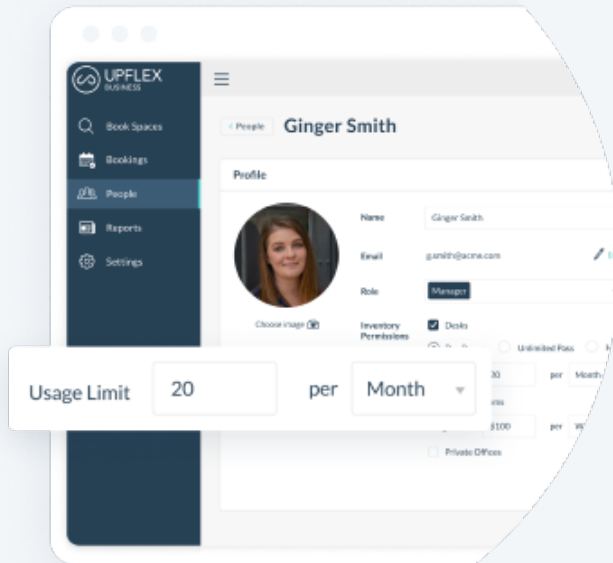

Easy budgeting

Our cost-effective unlimited use package can be used anywhere and lets you easily budget per employee.

How it works

Set up your teams

Add employees and assign unlimited passes and/or usage limits.

Your employees can search for Safe Spaces™

Find desks, private offices or meeting rooms which are adopting WHO & CDC safety measures.

Book & work safely

Book a space and feel confident you are working at a space dedicated to lowering risks.
